Drooms

What is Drooms ENTERPRISE?

> Drooms ENTERPRISE is an intelligent and flexible data room solution allowing you to store, share and manage confidential documents centrally no matter where you are

> The smart workspace streamlines co-operation between and among teams, all while keeping your data safe using the highest security standards out there

What are its key features?

24/7 access
Whether your telecommuting, hot-desking or on the road you still need immediate access to all your documents. You also need to be able to share files, no matter their size, quickly and painlessly. Drooms provides teams that agility by storing your documents independently from your IT department and making them accessible around the clock via your computer, iPhone and iPad.

Ironclad security
In compliance with European data protection laws, all data is stored on proprietary servers in Germany or Switzerland. Maintenance of servers is taken care of by Drooms GmbH in Frankfurt. For premium security, data transfers are completed via SSL connections only and are AES 256-bit encrypted. No VPN required.
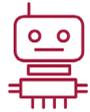

Drooms

All-in-one support
Drooms can help you build your master data room and reduce your workload with its dedicated project managers available around the clock in multiple languages. The initial collection, indexing and digitising of documents carried out on your behalf allows you to focus on making those all-important decisions. We also offer software trainings so you can get on with your day faster than ever.

Advanced permissions
When organising your team to work remotely, the focus should be on setting up the right permissions to access, view and manage information fast and trouble-free. Permissions can range from providing the ability to view individual files to being able to edit them in a number of ways.

AI assistance
When you create a new data room, you'll be able to define a file structure specific to your own needs. If you enable the Auto Allocation feature, the software learns how you organise your documents and does all the grunt work of indexing them for you. All you need to do to is upload your chosen documents via drag and drop. Enjoy our smart search and Findings Manager features to pull information at a click with 0 loading time too!

Drooms ENTERPRISE is currently being offered free for 3 months when you sign up for a year!
